

[WebGIS Newsletter - December 2004](#)

This monthly email newsletter is designed for existing and potential users of [WebGIS](#). For additional information on this service provided by [Anderson & Associates, Inc.](#), see <http://www.andassoc.com/> or www.webgis.net

[ArcMap Tool](#)

[A&A](#) has created an ArcMap tool that will automatically identify points that fall within a specified range of a series of pipeline segments. The points are derived from existing features such as buildings or streams. The tool currently calculates 2D stationing distances, and will soon consider 3D elevation values. For more information please contact us at Info@WebGIS.Net.

[Online Hit Reports](#)

We are finalizing a new functionality that will allow clients to access hit reports from [WebGIS.Net](#). [Susan Moore](#) will be sending out user names and passwords to each current [WebGIS](#) client. For more information please contact us at Info@WebGIS.Net.

[Featured Demo Site](#)

Please visit our [Fredericksburg, VA](#) demo site at <http://arcims2.webgis.net/va/fdburg/default.asp>. Fredericksburg is located halfway between Richmond and Washington, D.C. The area's rich history spans Colonial times, the Revolutionary War, the Civil War and the 20th century.

[USDA Imagery](#)

We continue to order USDA imagery for our GIS use. Currently we have many Virginia Counties but will expand on our inventory into North Carolina and Tennessee as the imagery becomes available. If you would be interested in seeing this imagery please contact us at Info@WebGIS.Net.

[Conferences](#)

[VA GIS Conference](#)

We had another successful time at the GIS Conference in Roanoke this year. We're already making plans for the October 2005 conference in Richmond next year. We would like to take this opportunity to thank everyone that stopped by our booth. Please contact [Susan Moore](#) if you have any questions or need additional information.

[VCCS](#)

We will be presenting and have a booth at [Homestead](#) December 8 - 10, 2004 at the Virginia Community College Systems fall conference. For more information on the conference or to set up a time to meet with our team please contact [Susan Moore](#).

[NC GIS Conference](#)

Next GIS Conference! We are currently making plans for the North Carolina GIS Conference in March. The conference is March 3 - 4, 2005 at the Benton Convention Center in Winston-Salem. If you would like more information on the conference please contact [Susan Moore](#).

[Our GIS Team](#)

We would like to highlight some of the GIS Technicians that many of you may have never met. Starting with our January newsletter we will be introducing you to those that are working behind the scenes.

[15,035,812 Hits for the month of November!](#)

According to our internal page request register, [WebGIS](#) received 15,035,812 requests for the month of November!

WebGIS Hit Reports

Visit the link below if you would like to sign up to receive a hit report on your WebGIS site or to change your reporting options.
