

## WebGIS Newsletter ~ February 2005

This monthly email newsletter is designed for existing and potential users of WebGIS. For additional information on this service provided by Anderson & Associates, Inc., see <http://www.andassoc.com/> or [www.webgis.net](http://www.webgis.net)

### More than just data

Working with A&A's GIS team is more than working with an organization that only has one focus. We have 37 years of experience with a team that is made up of diverse expertise, which enables us to see the big picture. Our engineering, surveying, programming and GIS expertise allows us to know what is needed for a locality to benefit each department, not just GIS. We also have a dedicated support team that is always there to help, after initial implementation. If you would like more information please contact us at [Info@webgis.net](mailto:Info@webgis.net).

### Base Mapping Programs

Many states are finishing up their base mapping programs, which were established to develop statewide mapping. For more information on West Virginia, Tennessee or Virginia's programs please follow the links below.

Tennessee: <http://gis.state.tn.us/mapping.html>

West Virginia: <http://www.addressingwv.org/>

Virginia: <http://www.vgin.virginia.gov/VBMP/VBMP.html>

If you need specific information or have questions please contact Susan Moore.

### City of Bedford Meeting

A&A's GIS Team met with over 20 individuals at our annual GIS meeting with City employees and realtors to discuss the next phase of GIS in the City. The meeting reviewed what has been done to date and what will happen over the next few years. You can view the City's GIS online at <http://12.28.172.211/bedfordcity/>.

### GIS Meeting in your area?

A&A will be happy to set up a meeting with officials in your locality to discuss GIS. We did this in Bedford last month and will be meeting this month with Wise County officials to discuss the future of GIS. Please contact Susan Moore to set something up!

### GIS/IT Integration

IT and GIS go hand and hand. Here at A&A we have specialized teams in both GIS and IT that are available to help your needs. Our IT team has the experience and capabilities to design your network, we are CISCO certified and authorized resellers of many suppliers. Our GIS team has extensive knowledge on GIS needs assessments, GIS hosting, migrating to SDE, parcel conversion, and much more. For more information please contact us at [Info@WebGIS.Net](mailto:Info@WebGIS.Net).

## [Our GIS Team](#)

Meet [Bryan Powell](#)! Bryan works as a geographer and has been with [A&A](#) since 2003. Bryan received a BS in Wildlife Science with a minor in Biology from Virginia Tech in Dec. 2001. During his senior year, he was introduced to GIS through various lab exercises pertaining to wildlife and forestry. During his Conservation Biology class, he used GIS exclusively on a semester long project which mapped out threatened and endangered species' habitat for Chincoteague National Wildlife Refuge. Bryan currently works on updating parcel mapping for Rockbridge County by using county furnished plats. He is also working on this same procedure for Bath County. Read about Bryan's 30-day, 14-state, 6746-mile road trip here [http://www.andassoc.com/ampersand/2004\\_10/page3.html](http://www.andassoc.com/ampersand/2004_10/page3.html).

## [Featured WebGIS sites](#)

We're adding [Tennessee](#) to our list of [WebGIS](#) sites. Demo sites for [City of Athens](#) and [McMinn County](#) are now up. [Athens](#) "The Friendly City" is nestled in the foothills of the Great Smoky Mountains. [McMinn County](#) has a population approaching 50,000 people. Both sites feature parcels, emergency services, roads and much more. Visit [www.webgis.net](http://www.webgis.net) to view the sites.

## [18,452,752 Hits for the month of January!](#)

According to our internal page request register, [WebGIS](#) received 18,452,758 requests for the month of January!

## [WebGIS Hit Reports](#)

Visit the link below if you would like to sign up to receive a [hit report](#) on your [WebGIS](#) site or to change your reporting options.

[http://www.webgis.net/site\\_reports/index.php](http://www.webgis.net/site_reports/index.php)

## [WebGIS Demo](#)

Interested in receiving a demonstration of [WebGIS](#) on a CD or via Netmeeting? If so, please contact Susan Moore at [mooresu@andassoc.com](mailto:mooresu@andassoc.com), 540.552.5592 or reply to this email and we'll be happy to show you one.

Have a question or an interesting article you want to include in our newsletter? Send an email to Susan Moore: [mooresu@andassoc.com](mailto:mooresu@andassoc.com). Also please send any tips or feedback you might have.
