

[WebGIS Newsletter ~ March 2005](#)

This monthly email newsletter is designed for existing and potential users of [WebGIS](#). For additional information on this service provided by [Anderson & Associates, Inc.](#), see <http://www.andassoc.com/> or www.webgis.net

[Buffer Tool](#)

Have you used the buffer tool on [WebGIS](#)? The buffer tool allows you to pick an area, for example, within 4 feet of your selected parcel. The results will give you the details on all parcels within the 4 feet. To access the buffer tool, click on the measure button. If you have any questions or suggestions to improve the usability of [WebGIS](#) please send us an email to support@webgis.net.

[Teleworks Partnership](#)

[Anderson & Associates \(A&A\)](#) & [Tele-Works](#), have formed a business partnership that will utilize a specialty of each firm. [A&A](#) plans to write a Geographic Information Systems (GIS) plug-in to [ESRI](#) to accompany [Tele-Works](#) software. The GIS module is expected to be an add-on component that [Tele-works](#) can use in conjunction with their database. This system would allow users to visualize the location of people in relation to an event such as flooding or high winds. For more information on the partnership please contact [Susan Moore](#).

[Up coming Tradeshow](#)

We will be participating in the following conferences as vendors and/or presenters.

[North Carolina GIS Conference](#) – Mar 3 – 4, 2005

[West Virginia Association of Counties Conference](#) – Mar 13 – 15, 2005

[Tennessee GIS Conference](#) – Mar 22 – 23, 2005

[West Virginia Technology Expo](#) – Mar 23 – 24, 2005

For more information please contact [Susan Moore](#).

[Accomack County, Virginia](#)

We have a demo site set up for [Accomack County, Virginia](#). Accomack is home of the famous Chincoteague Ponies and beautiful beaches and [Virginia Space Flight Center](#), one of only three commercial rocket launch facilities in the United States. The site features parcels, hospitals, roads, schools and much more. To view the demo please visit the link below:
<http://arcims2.webgis.net/va/accomack/default.asp>.

[Tennessee Joining WebGIS!](#)

We have another [Tennessee WebGIS](#) demo up! [Hawkins County](#) is located in Northeast Tennessee, extending down from the [Virginia](#) state line. [Hawkins](#) is one of the largest counties in the state, divided into two equal sections by the [Holston River](#). [Hawkins](#) is the second fastest growing County in the state! To check out the [WebGIS](#) demo featuring Aerial Photography, Streets, Streams, Parcels and more click on the link below:
<http://arcims.webgis.net/tn/hawkins/default.asp>.

[Meet Ken Smith](#)

Meet Ken Smith! Ken works in our Johnson City office as a geographer and has been with A&A since 2004. Ken received a BS in geography with a minor in Technology from East Tennessee State University in 1999. Ken has played an integral role as field verifier on a project for the creation of E911 services in Scott County, Virginia. Ken is also working on a similar project in Lee County, Virginia where he provides coordination of field crews. Ken Smith is heavily involved with database management for both projects. Please contact Jon Greene if you would like additional information on our E911 services.

Hits for the month of February!

According to our internal page request register, WebGIS received _____ requests for the month of February!

WebGIS Hit Reports

Visit the link below if you would like to sign up to receive a hit report on your WebGIS site or to change your reporting options.
